

## **iStyles Launches iPod Shuffle 2nd Gen Skin Sets**

*Transform your iPod shuffle 2nd Gen into a piece of art.*

Singapore ([PRWeb](#)) October 9, 2007 -- iStyles today announced the availability of Skin sets for the iPod shuffle 2nd Gen that transforms the shuffle into a piece of art.

The [iPod shuffle 2nd Gen Skin Sets](#) feature ultra-high resolution full-color designs that are printed on premium grade adhesive-backed cast vinyl with UV resistant inks and then covered with a clear protective layer for ultimate durability. All iStyles Skins use a patented repositionable and removable adhesive backing for fast, easy and accurate installation and goo-free removal.

The Skin set includes three different designs, each of which effectively covers all aluminum surfaces of the shuffle - the front Skin wraps around the front and the back Skin covers the flat surface of the clip. There are cutouts at the clickwheel area such that the look is customizable depending on the user's preference.

"We are very pleased with this new collection of Skins for the iPod shuffle as they're simply gorgeous and instantly transforms the shuffle into a piece of art!" said Mr Ming Keong Kuan, iStyles' Director.

About iStyles:
